

Online Education Proposal

Prepared for [-----]

By

[HELIUM INDIA]

Introduction

Education through the Web: [www.heliumminds.com].

We place education as a powerful tool in today's technology-driven and fast-paced world.

We believe in creating a world where everyone has access to knowledge and learning. We want to provide opportunities which everyone can gain through education.

[HELIUM INDIA] adheres to its mission of providing quality education through affordable online services. We provide high quality of education through modules based on a specific subject with a small price tag. We foster group discussions through its online CHAT SYSTEM and help create relationships with our students. We nurture the thirst for knowledge - and this speaks true of what we value most, learning.

About Us

[HELIUM INDIA] is a cherished dream where learning and knowledge is placed above everything else. Formed in [2010] as a response to the growing need for non-traditional learning that promotes self-discovery, knowledge construction, group-based discussions, transformational and independent learning, which is beneficial to students who want to exercise their flexibility and options on what to learn.

We employ the best teaching methods done online through our virtual classroom or learning management system. Our modules are created in a friendly and engaging manner to capture the student's interest. We cultivate the passion of understanding the world around, giving us more motivation to teach.

Subjects available as of now

I. Physics

- i. Subject learning- classes xi & xii
- ii. Test series atleast 100 in number

II. Maths perfect for competitive exams (banking, mbas, civil services etc)

III. Maths -olympiad (class iv to class x)

We cover everything from the subject fundamentals to exam preparations. In the course of time many more things would be added.

Features

Subject Learning (Physics)-

- Flash driven
- Modules based
- Developed after extensive research
- Broken into small sentences and paragraphs to make them easily understandable

Test Series-

- Time limited.
- Score calculated immediately at the end of every Test

- Answers and detailed solutions to all questions made accessible at the end of test itself
- Thousands of questions are organized in hundreds of Test Series.

How are they helpful?

- Students need not consult different books. The best of the world is brought to them.
- Search option makes it possible to choose any topic and thus saves time.
- Broken into capsules to make it easy to understand.
- Time limited Test Series give students a feel of examination. Thus boost their self confidence.
- Knowing score immediately helps students self analysis.
- Getting solutions simultaneously weed out dependence on others.
- Thousands of selected questions clear students' concepts and enable them to face any competition.
